ABOUT CV PLUS PROJECT

“CV PLUS aims to create a bridge between the world of education and that of companies through Corporate Volunteering initiatives. It has been designed to train managers of companies and educational centers, employees and teachers, in the development and management of this type of programs”.

In www.cvplus.eu platform you can find:

- **Corporate Volunteering legal framework** in Europe and in CV PLUS partner Countries;
- The **CV PLUS Good Practices collection**;
- The **Methodological Guides for companies and educational centres**: two complete handbooks aimed at supporting step by step companies and educational centres interested in cooperation activities and programs based on Corporate Volunteering;
- The **Trainings for companies and educational centres** interested in implementing Corporate Volunteering programs.

Through Corporate Volunteering, companies improve their image and reputation, and participate in the progress of their community. They get volunteer employees feel more linked to the company and they improve their professional and personal skills. More over, they can find new ideas and build new networks.

CV PLUS PLATFORM offers to companies tools to plan and implement Corporate Volunteering programs in schools and educational centres.
